I've been trying to find out what that "X" icon in the top right corner of the Gnome GUI is called, and how to get rid of it, or what its use is. I've looked all over and everything I find says "no idea", "unknown", or "ignore me". So, please, if anyone knows what it is, or has any idea on how to disable it, please answer my question. Thanks. A: Here is a list of the different gnome-specific/x-specific menu symbols found in the top right of the screen: Minimize Window Maximize Window Move To Top (sometimes called maximize Window on Top) Move To Bottom (sometimes called minimize Window on Bottom) Move Window To Left Move Window To Right Display Desktop Display Desktop - Mail Show Desktop Hide Desktop Remove From Launcher The most common of these is the one called Show Desktop. If you right-click on your desktop (or any other window) and select Hide Desktop, you will see the same icon in the top right of your screen. A: That's the X Window System. For some reason, Ubuntu removed the old Cairo Graphics library they were using for a very long time - and now, they use the Gnome one which is the same thing but with support for the X Window System. Most television remote controls have a coded button that causes the television to operate in a specified mode, such as 'record', 'play' or 'pause'. This makes it possible for the television
